

Open iTunes on your computer, Put the CD into your computer. Once iTunes has detected the CD, you may see a prompt, such as this, Multiple matches, or Would you like to import the CD into your library.

For the prompt, Multiple matches, click OK, then NO to import the CD.

If you see the prompt, Would you like to import this CD into your library, Click NO.

In the corner you will see **IMPORT**, click that arrow button and Choose, **APPLE LOSSLESS Encoder**, then **OK** to import.

In many instances, iTunes will not recognize the music, While the CD it is importing you may want to Correct then Name of the Music.
